RALEIGH GOING SOUTH

One of Our War Vessels Ordered to Key West.

IT WILL WATCH FILIBUSTERERS.

Spanish Minister Señor De Lome Probably Made the Request—Duty of the United States in the Matter — A Mysterious Cruise—Several More Engagements Reported With the Insurgents.

NEW YORK, June 11.—The administration has decided that a United States vessel of war should be sent to Key West for the purpose of co-operating with the revenue cutters in watching for filibustering expeditions in leaving that and other places in Florida to aid the Cuban insurgents.

This decision was reached late yesterday afternoon, just before Secretary Herbert's departure for Alabama, and he concluded that the Raleigh should be used for the purpose. The latter vessel is now at New York, where she arrived Sunday from Hampton Roads. Orders are expected to be sent to her commander immediately to prepare for the voyage, and it is probable before many days she will be on her way to Key West.

The news of the departure of a filibustering expedition from Key West, published in yesterday's newspapers, probably hastened the action in the matter on the part of the government, and it is probable that the representations which are understood to have been made by Señor De Lome, the Spanish minister here, on the subject have also had considerable weight.

It is probable that the action of the navy department is upon the advice of Secretary of State Olney. The position of the state department heretofore has been that it is the duty of the United States to prevent an armed expedition going to make war upon a nation or the possessions of a nation with which we are at peace, but there is nothing to prevent the sale of arms or the munitions of war.

It has been held heretofore that a torpedo boat taken apart and shipped in sections could not be prevented by this government, but if the torpedo boat should be filled and sailed from a port of the United States, this country would be responsible. It also has been held that this government could not be required to prevent men from taking passage on a ship bound for Cuba unless they were a drilled and armed force. It is apparent that a nice distinction may be made between what is and what is not filibustering expeditions, if attempts should be made by Americans to assist the Cuban rebels.

MYSTERIOUS CRUISE.

The Spanish War Vessel Watching a Suspicious Yacht.

FERNANDINA, Fla., June 11.—The yacht Minim, of this city, which started out last week on a voyage of uncertain intention, returned yesterday, after cruising up the Cumberland, St. Mary's and Satilla rivers and to the southward.

On board were several prominent Cuban sympathizers who have lent efforts to the insurgents' cause. The trip was the immediate outcome of the recent meeting of Cuban leaders held in this city.

Shortly after the Minim left Thursday evening, she saw the searchlight of the Spanish gunboat now cruising off this coast, and the Minim was closely watched until she had disappeared behind Cumberland Island. When St. Andrews was reached the same searchlight sent its rays to the yacht, when upon being discovered that it was followed and watched, turned again southward and anchored off High Point, Cumberland Island, thence slipped away to unknown places on the smaller rivers, where the party remained until yesterday.

Those on board the Minim were well supplied with Winchester and Remington rifles, an inexhaustible supply of ammunition and provisions. What the object of the cruise was is entirely unknown, but it is presumed that it was not accomplished, as another expedition of the same nature is to start out on Friday or Saturday after the meeting of Quesada and his colleagues, which is to be held in this city some time before that date.

LATEST FROM HAVANA.

Several More Skirmishes Have Taken Place at Different Places.

HAVANA, June 11.—Lieutenant Ruiz recently met the band of Diaz, the insurgent leader. A skirmish followed. The Spanish troops charged with fixed bayonets and the insurgents were driven to the mountains. The insurgents left one dead and three wounded, while two of their men surrendered after the action.

Lieutenant Colonel Tejada, between Cristo and San Luis, also engaged the insurgents in a stubborn conflict. One of the soldiers was killed and one wounded.

Members of the insurgent band commanded by Seayas plundered two stores in the province of Puerto Principe. The citizens became alarmed, as the village was absolutely without troops to defend it.

The bands of Mirow, Maceo and Sartori have added to their number 60 negroes from near Gibara. On this account it is thought that these bands will soon pay a visit to Gibara.

Insurgent General Gomez has passed through the province of Puerto Principe.

Troops will concentrate in the vicinity of Tunas for the purpose of helping the

citizens in case trouble should be threatened.

It is reported that the insurgents during the last revolution buried two canons and according to recent advices these have been dug up and will be repaired and placed in readiness for future action.

Maceo, the insurgent commander, has issued orders commanding the insurgent sharpshooters to kill Colonel Sandoval if the opportunity is presented, out of revenge for the death of Marti.

REPORTS SENT TO MADRID.

MADRID, June 11.—Advices from Cuba are to the effect that Colonel Callejas defeated the insurgents under Jose Maceo at Seboruco. Two of the insurgents were killed and seven wounded. Three of the Spaniards were wounded, including Lieutenant Nieto and Colonel Basallo.

WILL GO BACK TO WORK.

Ohio Miners Have Accepted the Recent Proposition of the Operators.

COLUMBUS, O., June 11.—The vote of the Ohio miners as to whether they would accept or reject the proposition of the operators to pay 51 cents for screened coal per ton for mining resulted: For acceptance, 5,091; against, 4,871; majority, 740.

The state miners' officials say in their circular to the miners of Ohio: "You will thus see that the provisional agreement, made between the operators and your delegates on June 1, 1895, has been ratified and accepted by the popular vote of the district. This makes the agreement valid. Locals will govern themselves accordingly, and will resume work under the provisions of said agreement.

"It must be borne in mind that, distasteful as the terms of this agreement are, we have hopes of its being only temporary. It is only binding insofar as the circumstances continue which forced its acceptance. If those circumstances change, which we are in hope of, we expect that better terms will be within our probabilities are long."

Secretary McBryde of the National Association says the Ohio miners acted wisely in accepting the offer of the operators, and that if the Pittsburgh miners will do as well they will be in position to take an advanced step by the time the fall trade opens.

MINERS RETURN TO WORK.

MASILLON, O., June 11.—The miners at several mines in this district resumed work yesterday at the rate of 51 cents a ton agreed upon by the Columbus meeting. The miners are generally pleased with the settlement. They say that 51 cents a ton is better than idleness and are willing to return to work.

APPEAL FOR AID.

Twenty-Eight Families Destitute at Cameron, on West Virginia.

WHEELING, June 11.—The little town of Cameron, W. Va., which was almost wiped out of existence by the fire yesterday morning, the property loss being over \$250,000, with insurance only \$48,000, appeals to the outside world for aid for the numerous destitute and homeless families in the following from Mayor Richardson sent out after a meeting last night.

"Having sustained a loss by fire of the greatest magnitude of any city of equal population in the country, making homeless 28 families and laying in ashes \$300,000 worth of property, we appeal to the charitable people throughout the country for funds with which to provide for the suffering of our town."

SCHOOL GIRL SHOT AND KILLED.

HYANNIS, Mass., June 11.—Lizzie Coleman, the 14-year-old daughter of William Coleman of Osterville, while on her way to school yesterday morning, was shot and killed by Henry Ledtke, a German, who next fired two shots at a little brother of the girl, who was with her. Ledtke then shot himself through the head, and died instantly. The murderer was employed as a farmhand by Simeon Leonard, and had been paying attention to the little Coleman girl. It is supposed that jealousy led to the crime.

RECEIVER ASKED FOR ROBY RACE TRACK.

HAMMOND, Ind., June 11.—In the superior court here yesterday Attorneys Richard Pendergast, of Chicago, and William Johnston, of Valparaiso, filed a petition in behalf of George V. Hanks, asking that a receiver be appointed for the Roby race track. The complaint sets forth that F. A. Morse has been appointed receiver in Chicago, and asks that a receiver be appointed in this county to act in conjunction with the Chicago receiver.

INDIAN WOMAN BRUTALLY SHOT.

ELK RAPIDS, Mich., June 11.—A most brutal murder occurred three miles north of here yesterday. An Indian woman whose horses had been impounded by George Love went to get them. Love threatened to kill her, but, not understanding English, she took one, when Love shot her in the back, lacerating her fearfully. The surgeon says she can live but a few hours. Love is in jail.

BRITISH SHIP OVERDUE.

SAN FRANCISCO, June 11.—The British ship Falls of Dee, bound to this port from Newcastle-on-the-Tyne, is out 186 days and considerable apprehension exists among local underwriters for her safety. The ship was last spoken at sea on March 12. She has a valuable cargo of coal, iron and steel.

MIDDLESBOROUGH, Fla., June 11.—Mrs. Ruth Bruskie yesterday morning left her three younger children in charge of her 9-year-old boy. One of the younger boys deliberately set fire to the babe's clothing, burning the child to death.

NEW PACIFIC CABLE

One Is Proposed by a French Company.

FROM SYDNEY TO SAN FRANCISCO

It Will Take in Auckland, Samoa and Honolulu—The United States and the Hawaiian Governments Will Be Asked to Subsidize the Road—Latest Events Occurring in Hawaii.

SAN FRANCISCO, June 11.—The steamer Australia arrived yesterday from Honolulu, bringing the following advices, dated June 3:

Audley J. Coote, an Australian, who is interested in different cables, arrived on the 1st inst. to confer with the Hawaiian government regarding the proposed Pacific cable. He has made a proposition which will be considered by President Dole and his cabinet. Mr. Coote will be in Washington on the 17th of October. He represents a French company which is willing to build a cable from Sydney to San Francisco, taking in Auckland, Samoa and Honolulu. He wants the Hawaiian government to pay an annual subsidy, in return for which no charge will be made for official messages. He will make a similar proposition to the United States. Mr. Coote feels confident that both governments will assist his company. He declares that the cable will be built within 18 months.

W. N. Armstrong has gone to Japan. It is believed that he has been sent to Japan by the Dole government to make a new treaty in place of the present one, which allows Japanese to come in unhindered.

William R. Castle, the new minister to Washington, will leave this country accompanied by his family early in August and expects to reach Washington about the 1st of September. Mr. Castle is of American parentage, his father, the late S. T. Castle, being one of the early settlers in this country. He is one of the leading lawyers of the island and has always taken a prominent part in all movements for moral political advancement of the country. During the troubles of 1893, Mr. Castle was a member of the committee of safety and later went to Washington as a member of the annexation committee, which presented the treaty of annexation to President Harrison. He has held many important government positions and is at present president of the board of education.

E. C. Creek pleaded guilty to a charge of conspiracy on the 1st inst. He was sentenced to three years' imprisonment, but the sentence was suspended with the understanding that he would leave the country. He left the same day for China by the City of Pekin. Creek along with John E. Bush and Joseph Hawah were arrested last September. Hawah has since been acquitted by a jury, Bush's trial resulting in a disagreement. The three men were to engineer a revolution, but were arrested before it came to a head.

IRON HALL CLAIMS.

All Been Filed and the Order Will Soon Be Wound Up.

INDIANAPOLIS, June 11.—Yesterday marked the limit of time allowed by the superior court of this county for the filing of claims against the order of the Iron Hall. Fifty claims on matured certificates aggregating \$32,000 were allowed by the court and ordered paid.

A claim of a peculiar character, and which will not be allowed, was filed by Joseph R. Robinson of this city for \$1,739. He claimed to have done secret work.

All claims for attorneys' fees, which it is expected will aggregate \$20,000, must be filed this week and will be heard next Saturday.

Work is now going on at the receiver's office in preparation for the payment of a dividend not later than June 29. This dividend will be made so large as to materially cut down the balance in the receiver's hands.

The building in which the supreme officers of the order were so long located in this city will be sold at public auction next Saturday.

MURDER OVER CATTLE.

ARCADIA, Fla., June 11.—Dempsey Crews, a prominent man of this county, was shot and instantly killed at Crews' yesterday by J. S. Lucas, a well-known citizen. Lucas is in a dying condition from wounds made by Crews. The trouble has been brewing for some time over their cattle. Both men had armed themselves in the morning with double-barreled shotguns, and met in the woods. Mr. Crews was heard to remark some days ago that if the courts of the county failed to protect him, he would protect his property himself or die.

DEATH OF A WELL KNOWN EDUCATOR.

BLOOMINGTON, Ind., June 11.—Dr. Theophilus A. Wylie died yesterday after a long illness at the age of 85. He was one of the oldest and best known educators of the state, and had been connected with the University of Indiana for the past half century, the last 10 years as Professor Emeritus. He originally came here from Pennsylvania, and for many years was recognized as a leader in educational matters in the west.

SALINA, Kan., June 11.—A cloud-burst is reported from Bartlesville, a small town southwest of here in Barton county, last night. The water was about four feet deep, and did much damage. A herd of about 50 head of cattle was drowned and several buildings were wrecked. No lives were lost so far as has been learned.

AGRICULTURAL REPORT.

Condition of Wheat, Spring Wheat, Oats, Barley and Rye.

WASHINGTON, June 11.—The report of June 1, consolidated from the returns of the correspondents of the agricultural department, makes the acreage of winter wheat at present growing, after allowing for abandonments, 95.1 per cent of the area harvested in 1894.

The percentages of winter wheat acreage upon the basis indicated the principal states are as follows: Ohio, 95; Michigan, 90; Indiana, 95; Illinois, 95; Kansas, 97, and California, 115. The percentage of spring wheat area for the entire country is 99.5 per cent, being but a slight reduction from last year's area.

The percentages of spring wheat acreage of the principal states are: Wisconsin, 107; Minnesota, 100; Nebraska, 101; North Dakota, 100; South Dakota, 100.

The condition of winter wheat has fallen decidedly since last report, being 71.1 per cent, against 82.9 on May 1. The condition reported June 1, 1894, was 83.2 per cent. The percentages of the principal states are as follows: Ohio, 70; Michigan, 77; Indiana, 78; Illinois, 51; Missouri, 70; Kansas, 37; Nebraska, 37; California, 102.

The condition of spring wheat shows an average for the whole country of 97.8 per cent and for the principal spring wheat states as follows: Minnesota, 109; Wisconsin, 97; Iowa, 101; Nebraska, 60; South Dakota, 97; North Dakota, 99; Washington, 96; Oregon, 99.

The average percentage of all wheat is 97.1, and the condition of same is 78.6 per cent.

The preliminary report places the acreage of oats at 103.2 of last year's area. The returns makes the condition 84.3, against 87.0 last June.

The returns as to barley make the average condition of the crop June 1 90.3 per cent, against 82.2 last year.

The average in rye is 96.7 of that of last year. Average condition June 1, 85.7 per cent. The acreage of rye is 100.2 per cent of that of last year, the condition 89.2.

RAIN THE ONLY RELIEF.

Forest Fires Sweeping Everything in Certain Parts of Pennsylvania.

BRADFORD, Pa., June 11.—The forest fires that started last Saturday are still burning fiercely and large gangs of men are working trying to prevent the flames from spreading to valuable property. Elk county is again experiencing a number of fires and the woods between Russell City and Chaffee are ablaze and considerable heavy timber is being devoured by the flames.

Kane is surrounded by fires, and points that last week's fire did not burn are now being burned over. A large force of men are now at work trying to prevent the flames from spreading to oil and other valuable property. There is no wind blowing at present, which is aiding the fire fighters materially.

Yesterday's fire at Sugar Run destroyed 1,500,000 feet of logs and 1,000 cord of bark. H. O. Ostrander lost 3,000,000 feet of logs and some number. Allen's lumber camp has been destroyed and the people of the place barely had time to remove their household goods.

A big fire is reported between Chipmunk and Limestone, and much valuable property is in danger. Everything in the woods is again dry and unless it rains soon there is no telling what the result may be.

FOUL OUT NOTHING.

Another Day's Investigation of Miss Nellie Harrington's Murder.

SAN FRANCISCO, June 11.—The coroner's inquest into the death of Miss Nellie Harrington, murdered in her flat 10 days ago, was resumed yesterday.

Mrs. Crouse, a neighbor of Miss Harrington, said that Senator Buck was not the only man who had visited the murdered woman. Another elderly man had frequently taken her driving.

Mrs. Mary Roy, a sister of the deceased woman, testified that she had quarreled with Miss Harrington because the latter persisted in accepting Senator Buck's attentions, knowing him to be a married man, and that continually accompanying him to restaurants and resorts was injuring her character.

Several witnesses testified that Senator Buck was in Oakland after 1 p. m. on the day Miss Harrington was murdered, so that Buck could not possibly have crossed the bay before the hour her dead body was discovered.

Labor Battle Nearing an End.

PROVIDENCE, June 11.—The fight between the operatives and manufacturers for nearly two months at the Atlantic mill, and half that time at all, the mills in Olneyville, is apparently nearing its end. It is estimated that 2,000 employees have left Olneyville since the fight began. The Riverside loom fixers all went in yesterday and a decided gain was made at the other mills. Two hundred and twenty-four looms are now running at the Riverside. In the National mills the final stand of the strikers is evidently to be made. The strike leaders assert that they can continue the fight here indefinitely.

LOVELL, Me., June 11.—It has just become known that last Thursday night the grocery store of J. A. Hutchins was entered by burglars and \$50,000 in cash, stocks, notes and bonds were stolen. The securities were kept in a small tin box in the safe in

Increasing cloudiness, easterly winds.

"OLD-TIME Republicans seem to be the cream of the Democratic party as constituted at present," remarks the Cincinnati Tribune. It's a great and grand party that can win the best element in other parties.

OVER in Jackson County, O., the salaries of school teachers have been reduced to \$33.33 per month, and in Gallia County the teachers are now paid only \$27.50. And yet Republicans are wont to boast of the public schools of Ohio. You can't have good schools without good teachers, and good teachers can't be had for such small pay.

The Railroad Gazette announces that the railroad companies have ordered more than 22,000 freight cars this year, and have bids out for 3,000 more, representing in all an expenditure of over \$10,000,000. Such a record for less than five months of the year tells its own story, says an exchange. It not only furnishes proof positive that times are getting better, but it shows that the facilities are being provided which must lend invaluable aid to the process of betterment.

THERE are 10,000 car-loads of watermelons growing on 21,900 acres along one railroad in the South. In hauling cotton 10,000 car-loads would represent about 500,000 bales, or the product of 1,000,000 to 1,500,000 acres on the general average of about one-third to one-half a bale per acre; or, in other words, 22,000 acres in watermelons yield as many cars of freight as 1,000,000 to 1,500,000 acres in cotton.

Commenting on this the Manufacturers' Record says: "Add to the 10,000 cars along this one system the production of watermelons at other points, the thousands of cars of peaches which will go North from Georgia this year, the solid trainloads day after day of strawberries and other fruits and vegetables from many parts of the South, and the magnitude of this industry—a growth of recent years—can be appreciated. This business means that within the next few years the fruit and market-garden business of the South, now bringing into this section at least \$50,000,000 a year, will amount to \$100,000,000 or more, with a steady increase year after year."

Mr. Pearce's Good Investment.

Says the Pantagraph of Bloomington, Ill.: Mr. E. E. Pearce, of Flemingsburg, Ky., owns a half section just south of the city and this side of the county farm. He also owns a section in Martin township, another in Chenoa and two near Gibson. All of this land he purchased in 1852 at 80 cents per acre, by buying up land warrants. He has sold enough from his purchases to pay all the first cost and interest, and from the remainder receives an income of \$12,000 per year. He has not seen any of the land for twenty years. He has a son living in Gibson, who attends to all business matters."

did you say?

Yes, that describes how I feel.

I have no energy left, nothing interests me.

My strength has left me and I have no inclination to work.

No one would take me for the same person that I used to be.

I look and feel forlorn and miserable.

My spirits are low, I feel despondent and I can't sleep at night.

I am constipated and my digestion is out of order.

I feel almost hopeless, it seems to me that I shall never be strong again.

Cheer up, your case is far from being hopeless. You are suffering from general debility, your nerves need toning up, you lack vitality.

The cure lies in enriching and purifying your blood and strengthening the system. You should take

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all drugists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

MAYSVILLE CARRIAGE COMPANY.

Articles of Incorporation Filed—The Capital Stock Placed at \$40,000—The Officers.

The articles of incorporation of the above company have been lodged for record in the County Clerk's office. The incorporators are Mr. J. J. Shackleford, Dr. J. T. Fleming, Dr. J. M. Frazee and Major J. T. Long.

The capital stock is \$40,000, divided into 400 shares of the par value of \$100.

The stock is also divided into two classes, preferred and common. The preferred stock is placed at \$25,000 and the common at \$15,000.

The affairs of the corporation are to be conducted by a President and three Directors, a Secretary and a General Manager. Dr. Fleming is President, Mr. James J. Shackleford General Manager and Dr. Frazee, Mr. Shackleford and Major Long, Directors.

Dr. Fleming, Dr. Frazee and Major Long recently bought the interest of Mr. E. Myall in the carriage factory and business of Myall & Shackleford on West Second. It is the intention of the new company to increase the output of the factory. There is no better and more substantial vehicle made than the buggies, carriages, &c., turned out by this factory, and the new company ought to have very little trouble in largely increasing the trade the house has heretofore enjoyed.

Success to the Maysville Carriage Company.

River News.

The marks show 5 1-10 feet and falling.

The sandbars are beginning to give the large packets some trouble.

The Ruth for Portsmouth and Bonanza for Pomeroy will pass up to-night.

The Bedford passed down Monday, and will probably enter a trade as a low water packet.

The old Gretna Green, now used by Captain Phister for storage purposes, sprang a leak and sank in five feet of water yesterday at 8 a. m., just above the wharfboat. No damage, as the leak was discovered in time to remove the freight.

Dover News: "Captain Matson, of the Ripley ferry boat Stone Brothers, has been crossing the Ohio river at that point, boy and man, for thirty years. He thinks it a low estimate to put the average crossings made in that time at twenty-five round trips or fifty crossings a day, counting every day in the year, which is a fair estimate. Thus the Captain has crossed the Ohio river at Ripley 547,500 times, and he bids fair to cross at least half as many more—and we hope he will."

FINANCIALLY EMBARRASSED.

A Prominent Dealer in Leaf Tobacco Assigns—The Assets And Liabilities.

Mr. Thomas L. Best, one of the largest dealers in leaf tobacco in this section, made an assignment Monday for the benefit of his creditors. Messrs. C. B. Pearce, Jr., and William Gault were named as the assignees, and they have accepted the trust.

Mr. Best is widely known and his friends everywhere will regret to learn of his financial embarrassment. The assignment came in the nature of a surprise except to his most intimate friends.

The assets consist of live stock and personality, a lot of tobacco and two farms situated a few miles south of this city, and containing nearly 300 acres of land. Much of the tobacco is stored in Cincinnati. The assets will foot up, it is thought, about \$50,000. The exact amount of the liabilities is not known; they exceed the assets.

Some two or three years ago, Mr. Best made a big purchase of tobacco, and following this came the heavy depreciation in the price of the weed. This was the beginning of his financial troubles. He has been trying to tide over his difficulties, and would have succeeded had not some of the Cincinnati warehousemen compelled him to sell three or four hundred hogsheads of tobacco last fall.

He wanted to hold this tobacco until this spring, and had he been able to do this the increase in the price would have brought him relief from his financial troubles.

Mr. Best's many friends trust his embarrassment will prove only temporary.

THE GREAT WALLACE SHOWS.

They Arrived Early This Morning, and Will Give Performances This Afternoon and To-night.

The Great Wallace Shows came in early this morning from Huntington, and the clowns and the animals and the trick horses, and equestrians and equestriennes, and aerialists &c., &c., will be seen this afternoon and to-night at the big tents in the Sixth ward.

That part of the city contains the great attraction for the small boy, to-day. Day had hardly dawned before he was seen hurriedly wending his way to the East End.

But a circus is always an attraction for old as well as young, and the streets of Maysville are thronged with happy-hearted people at this writing, all anxiously awaiting the grand parade.

Wherever this show has been this year, it has won words of praise from the press. See it this afternoon or to-night.

Farmers Discouraged.

The farmers in some parts of the county are feeling greatly discouraged over crop prospects. On Dr. A. H. Wall's farm they commenced planting corn yesterday for the third time. It will require a very favorable fall to make a corn crop. Some tobacco was set last week, but much of it has died, and with a few more days of drought but little of it will survive. Dr. Wall says he has never seen as gloomy prospects for Mason County farmers.

The pleasant home of Miss Lida Berry, on West Second street, was the scene of a very enjoyable entertainment last Saturday evening, the occasion being a musical given by her pupils, assisted by Mrs. Cummings, Dr. Smoot, Miss Roberta Cox on violin and Miss Mae Burgess on mandolin. Miss Berry is one of the most successful teachers on the piano in this section, and the entertainments given by her pupils are always enjoyable.

The Mayslick and Carlisle Christian Endeavor Societies have planned to spend next Thursday, June 13th, at Blue Lick Springs. The Mayslick Society extends a cordial invitation to the Senior and Junior C. E. Societies of the Christian Church of this city to attend. A very enjoyable outing is anticipated. All Christian Endeavorers are invited and they are asked to take well-filled lunch baskets with them; also take your Bibles and hymn books.

"CANNON BALL" DILG.

He Will be Here With The Navies To-morrow, And Will Try to Down The Maysvilles

The Navies, one of the best ball teams in Cincinnati, will be here to-morrow, and will play the Maysvilles to-morrow afternoon and Thursday afternoon, and will probably remain over for a third game on Friday morning.

Dilg and Jones are the Navies' twirlers. The former was with the Dayton, O., club last season, and his fine pitching won him the name of "Cannon Ball" Dilg. Jones was with the Cynthianas last year and pitched for that team when they defeated the Maysvilles on the home grounds.

The Navies are coming with the determination to down the Maysvilles, and the games promise to be lively ones. Maysville will have Wellner of Dayton, O., or Bradley to help Rieman do the pitching. Bradley is a left-handed twirler and was in the Southern League last year. He has been pitching for Lafayette, Ind., this year.

Lever pitched for the Manhattans of Cincinnati in a game with the Spiders Sunday and played a great game, striking out eighteen men and giving the Spiders but three or four hits. The managers of the local team are negotiating with the Cincinnati League team for a game some time this month.

The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

MASTIN & BOULDEN, of Sardis, are boring an artesian well for Acker & Frederick at their ice factory on the Fleming pipe, making the third well they have sunk.

MISS MAGGIE MAY KILGOUR, of Shelbyville, and Mr. Benjamin Mathews, of near Shelbyville, were married last Thursday. Miss Kilgour formerly lived at Dover.

A REPORT from Washington states that the civil service rules will soon be extended to take in the employees of the Government Printing office. This would give several Maysvillians a "cinch" on their positions.

A LATE Washington dispatch says that United States Consul Morris at Ghent, Belgium, in a report to the State Department, described a new process of making artificial cotton which has been remarkably successful, the product being much cheaper than natural cotton and possessing most of its qualities. The basis is wood pulp, which by a course of treatment, is changed into pure cellulose and spun into thread and then woven into cloth. It resembles ordinary cotton. By coating it with paraffine and passing it over glass a beautiful brilliancy may be given to it. Much greater strength can be imparted by parchmentizing, when it acquires a semi-transparency. The cloth wears well and has a good appearance.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

A JUDGE at Toledo, O., holds that dogs are property, and that a city ordinance authorizing them to be impounded and sold for non-payment of license, is unconstitutional, as depriving the owner of his property without due process of law. Even more recently the Supreme Court of Texas goes so far as to decide that a statute or ordinance authorizing police to kill unmuzzled dogs was unconstitutional upon the same grounds. Judge Hayes, of Toledo, pays attention to the license feature, holding it to be void.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,

Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,

Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,

111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
